HELD FOR TRIAL IN SUPERIOR COURT

Wife Deserter Tries to Besmirch Name of 16-Year-Old Girl Wife.

ALAMEDA, April 19.—Justice of the Peace Johnson this morning took some but not all of the flippant out of Joseph Rapkin, who calls himself a marine engineer, when the man was up for his preliminary examination on a charge of failure to provide for his 16-year-old wife, Mabel. The judge roundly scolded the defendant and his attorney, George Wise, when an attempt was made to compromise the character of the child wife. Rapkin was held to answer to the superior court and his bail was fixed in the sum of \$2000 cash.

An attempt was made to have the bail lessened so that the release of Rapkin, pending the hearing of the charge, might be procured, but Judge Johnson declared that there was no reason why he should show any mercy to the coarser and impertinently leering prisoner. "Hell is just the place for him and a wait there will no doubt do him good," he said. "Such a man should be kept in jail."

PLEASED THE AUDIENCE.

There was a decided impulse on the part of the spectators in the court room to applaud the decision of Judge Johnson, for the feeling against Rapkin, after the girl-wife had given her testimony, was decidedly bitter, and when the attempt was made to besmirch her character, the bitter feeling gave place to outward signs of antagonism.

Judge Johnson shut up Attorney Wise before he could say anything not bearing on the case of desertion.

Mrs. Rapkin was the first witness called. She testified that they were married by Police Judge Samuels in Oakland last October, and that since the date of their marriage the total assistance that had been furnished by her husband was seventy-five cents. She declared that he had furnished no food, clothes or medical attendance, though she was greatly in need of the latter by reason of her delicate condition.

On the contrary, the man ate and slept at the home of her mother and was for a time a resident of her mother's house.

An attempt was made to show that Rapkin was unable to secure work, but this had no weight with the court.

Rapkin does not bear the best reputation, having, it is alleged, been in trouble with the police of Los Angeles, where he went when he deserted his wife shortly after their marriage.

He calls himself a marine engineer, but has been employed variously as a motorman, and a splicer.

He was remanded to the sheriff today in default of the \$2000 bail. Mrs. Rapkin was Mabel Fox before her marriage.

SON OF INVENTOR OBJECTS TO WILL

Claims Executors Named to Control Boshke's Estate Are Improvident.

George W. Boshke has filed in the probate department of the Superior Court his opposition to the appointment of Mrs. A. L. Astor and H. W. Hutton as executors of the will of the deceased, Albert Boshke, P. S. army engineer and inventor, de- clining that both of them are so im- provident as to be dangerous to the interests of the estate if allowed to have control of it.

The Boshke estate is valued any- where from \$10,000 to \$250,000, de- pending entirely upon the commer- cial worth of inventions perfected by the deceased. One of the inventions is a dredger. For a number of years a large design of this machine, upon which Boshke spent large sums of money, has been standing in the es- tuary.

Aside from Mrs. Astor, a daughter of the deceased, the heirs are Martha E. Boshke, the widow, and George W., Albert L. and Guy Boshke, and Ida M. Bergman, other children. Mrs. Astor and Hutton are named as ex- cutors in the will, which leaves the estate to the widow and children.

PORTUGUESE SHIP TO BE WELCOMED

Cruiser San Gabriel Expected in Harbor Within Next Few Days.

Editor TRIBUNE: A reception of honor will be tendered the Portuguese cruiser San Gabriel, which is expected in the port of San Francisco within the next two or three days, and with this end in view all resident natives of the Azores, as well as their American de- cendants, the body including the full membership of all Portuguese societies, have united on a plan for the man- ifestation of patriotism and appreciation. A considerable sum of money has been collected and during the stay of the cruiser in the harbor the officers will be banqueted and the sailors made guests at a number of affairs planned in their honor.

Despite the oppressive laws of our country, which many of us have come to America to escape, the people of Portu- gal are loyal to their flag and their king, and a fitting demonstration will, we hope, be accorded the sea messenger which is now on its way from Azorean shores. The visiting ship, coming from a land which has given much useful knowledge and many great men to this country, should be accorded a respectful reception by American citizens, as well as its officers and marines are worthy highest esteem and such we hope will be accorded them. Their stay here is to be short, but we look to every Portuguese subject to help to make it a memorable one.

The Danger and Folly of Signing Water Contracts

They are drawn with the intention of creating a lien on your property and of clouding your title.

The legal opinion of Attorneys Snook & Church on the form of contract now being circulated by the Bay Cities Water Company should be carefully read and weighed by every user of water. Messrs. Snook & Church say:

"We have investigated the matter of the lien, and have come to the conclusion that the contract is drawn with the intention of creating a lien upon the property described in the contract."

The contract now being submitted to property owners of this city by Bay Cities Water Company by its terms, either makes the owner of the property who signs this contract personally liable for all water used on the premises therein described for the term of ten (10) years, notwithstanding the fact that the ownership of the prop- erty may be changed many times during this term, or by its terms it is a covenant running with the land for thirteen (13) years and creates a lien upon said property.

The contract provides "That in case the party of the first part (Bay Cities Water Company), shall, on or before the first day of June, 1913, lay water mains in the streets adjacent to the premises of said party of the second part (property owner)—the party of the second part will thereupon take water for term of ten (10) years from the party of the first part—and the party of the second part shall pay to said party of the first part—for any water used on the hereinbefore described premises."

The contract also provides that the agreements therein con- tained shall apply to and bind the party of the second part (the prop- erty owner) his heirs, executors, successors or assigns.

It is plain from this clause in the contract that the property owner by signing said contract either clouds his title or becomes personally liable for the water used on the premises, for ten (10) years even though he might have sold it.

Should a Rate War Result Why Not Profit By It?

When Mr. Dingee entered the Oakland water field, and before he sold out to the Contra Costa Water Company, his operations were followed by a virulent rate-cutting war.

Thousands of consumers got their water for 50 cents per month flat. This condition continued for over a year.

Suppose another water rate war should be inaugurated. If you have signed a Bay Cities Company contract you have cut off your- self from the entire benefit of any such rate-cutting.

The mountain labored and brought forth—a mouse. Naturally our contracts are liens. How else could we afford to spend \$8,000,000 to bring our water here? But they only become liens when we deliver the water to you. You will then consider a Bay Cities Water Co.'s contract an asset rather than a lien. For you hold our guarantee to sell you water at certain stated rates for ten years; rates that have never been equaled and cannot be equaled by any local concern.

The contract we ask you to sign is valueless until we deliver our water, which will be three years from now. Hence our contract is for ten years; not thirteen years.

It also binds the Bay Cities Water Company, its heirs, executors, suc- cessors, or assigns, to sell water at the rates stated in the contract, for ten years, and also to meet any rate that may be set by the City Council.

Our retiring critic implies that if the one who buys your property fails to pay his water bill, we will have our collectors follow you to the ut- termost ends of the earth. In other words, we hold a lien upon your person, not your property. Even if this fallacy were a fact, a less ex- pensive means of collection—and the one we shall adopt — will be to turn the water off. A simple method, but effective.

As we said in our opening announcement, the rates we propose to es- tablish are not war rates. They are established prices based upon the actual cost of the water to us. Mr. Dingee's low prices lasted one year. Our low prices are for ten years. That is the difference between Mr. Dingee's proposition and the Bay Cities Water Co.'s offer.

Then the rate went up—up—up—and stayed up. You, the consumer, paid for Mr. Dingee's merry little war, and have paid heavily ever since.

No rate war will be inaugurated. There will be no rate cutting. If the Peoples Water Co. attempted to meet the rates we have established, they would not live six months. Listen, ye people, to their plaintive pleading to the City Council to have the present rate maintained for at least two years more!

Americans to Visit At Chester Pageant

LONDON, April 18.—Americans visiting England this summer are expected to stop off at Chester in large numbers to see the Chester pageant, which will be given at Chester Park, the Park of Westminster, at 1000 feet, from July 18 to 23. A special reception committee has been ap- pointed to welcome visitors from the thirty-five Chester in the United States, the half-dozen Canadian Chester, and those in other British colonies. There will be 3000 performers taking part, including 1000 dancers, of whom 300 or 400 will be children, also a choir of 200 voices. The various "episodes" will represent historical events connected with the ancient city of Chester from A. D. 78, to A. D. 1646, the latter date being that of the siege of Chester in the civil war. Several kings of England from Vol- gar (923) to Charles I (1645) will be in- troduced.

American Styles Influence English

LONDON, April 18.—That the English- man's dress is beginning to be influenced by American styles is indicated in a statement on the newest fashions from Export Vincent. "The well-dressed man," he says, "is wearing a new pattern lounge suit, this Easter. It has broad lapels like a frock coat, but is single-breasted and cut low, with only two buttons, and the one at the waist line is worn fastened. Silver grey is the fashionable shade, and the trousers are cut peg-top fashion." All of which shows a distinct tendency to follow American style—an interesting reversal of the order of things.

What the Alameda Police Are Doing

ALAMEDA, April 19.—C. C. Gould, laborer, residence nowhere, was arrest- ed by Policeman Hickory at Verdi street and Santa Clara avenue last eve- ning on the suspicion of being insane. Gould was acting in a queer manner, wandering aimlessly, and attracting the attention of the people in the neigh- borhood by his strange manners. Complaint was made to the police last night that three piles of gravel without lights were on the street in front of the Elks' new building on Santa Clara ave- nue.

Mrs. Dominga, of 1231 Weber street, complained to the police that boys play- ing in the streets run in over her lawns and shrubbery and do a great amount of damage to the young plants.

But now it is gradually dawning on the world that pledges do not stop drunkenness. The serious system of the habitual drinker is discerned and he must have treatment that will cure this condition. FIGHT FOR LOWER RATES IS LOST

The Commerce Commission
Decides Against Arizona
Town in Railroad Suit.

WASHINGTON, April 19.—An opinion was handed down yesterday by the Interstate Commerce Commission in a long series of cases instituted by the Commerce Commission against the Arizona and California Railroad Company and many other interstate carriers claiming protection to the complaint on shipments of coke from the Pennsylvania fields to Globe, Ariz.

The importance of the cases lay in the allegation that the through rates on coke were excessive. The rates amounted to the joint rates from the ovens to Chicago plus the local rates from Chicago to points of destination. The complaint maintained that it was unjustly discriminated against because it was allowed to pay the higher of two rates from the ovens to Chicago.

The commission held that the complaint could not be permitted to attack the separate divisions of joint through rates awarded to the various carriers. The commission held always that the demand for a rate was not based upon any real damage or injury to the shipper.

Horse Goes on Spree And Ends in River

SPRINGFIELD, Ohio, April 19.—Having wrecked a trolley car, smashed a wagon into splinters, injured two men and held up a horse train, a horse ended its spectacular career here last night by being killed with a pick and buried in the Mud river.

The horse was originally attached to a wagon in which were seated the five men. It started on its spree by backing the wagon into a trolley car, one side of which it demolished. It then kicked the wagon to pieces and distributed its five occupants in various parts of the road, two of them being seriously hurt.

Free of the wagon, the horse dashed along a railroad trestle where it fell with a broken leg in front of an oncoming train. The train was stopped and the horse dispatched with a pick. The only means available. The whole train crew then was called into action and they buried the body into the Mud river.

The vessel is a steel-hulled cargo vessel with one mast, was built in 1890, is of 200 gross tons and was used during the Spanish war as an auxiliary, and since then, to some extent, by the naval militia.

THREE-CORNERED RACE IS AN EXCITING SPECTACLE

French Cook Walks Away With Distance Race; Four Favorites In Front; Paddock Gossip

By LEE DEMIER

The crowd that turned out to the Oakland track yesterday was above the average for a Monday gathering. Two more layers made the weight, bringing the number up to fourteen that handled the business on silent row during the afternoon. The talent set the ball rolling by putting over Fride of Lismore in the curtain raiser, then followed it up by putting another crimp into the layers bank roll when No Quarter won the second race.

Pride of Lismore the choice in the day's opener gladdened the hearts of the favorite players when she won the event in a hard drive from Sweet Earl Gellco.

JIMMY FITTON, who is to meet Chuck Larsen in one of the six-round contests at the West Oakland show tonight

No Quarter came right back from his good race of Saturday and won the race over the future course when Jockey A. Thomas got ready to let him down in the stretch. Titus II was second best. To be sure, Titus II was second best. To be sure, Titus II was second best.

It was whispered around smart circles at the track yesterday that it would be best for all concerned for him not to accept any more mounts as they were not satisfied with the ride he gave.

Arthur Rouse, who by the stable connection for a killing to win the day's opener had no chance with the rider.

The Oakland contingent headed by own or Jack Crane tried to make a ten strike by backing Billy Meyer heavily.

The defeat of Tramont sent many players to the winners' bench. On Cove it looked a clutch for the box riding by Mr. (own method) it never fails to restore vigor strength hope and confidence.

ELECTROLIERS PROVOKE HOT TALK IN CITY COUNCIL

After Big Wrangle and Heated Discussion All Sections Will Get the Ornamental Standards

The innocent electroliers provoked heated discussion in the council last night. The council was divided into two camps, one in favor of the electroliers and one in opposition to them.

THE FINAL VOTE showed that the council stood five to five for giving electroliers for Fourth and Market streets, and those for Twenty-third and East Fourteenth streets were granted. Before the end of the meeting peace spread its wings over the discussion and upon the motion of the council the electroliers would go up along Market and Fourteenth streets as soon as the property owners had signed up for the improvement of those thoroughfares to the standard.

Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Alkey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my illness, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has gulled thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Mrs. Carrie Dibble Conceded to Be Leading Candidate for Presidency.

ORGANIZATION NOW HAS 161,646 MEMBERSHIP

California Department Organized in 1885 and Has Grown Rapidly.

The election of officers of the Women's Relief Corps will be held Thursday afternoon when the names of Mrs. Anna A. Cannon of Oakland, Mrs. Hattie Onyette of Orville and Mrs. Carrie M. Dibble will be proposed for the presidency of the department.

Mrs. Carrie Dibble is acknowledged to be the leading candidate for the office of department president, and has the endorsement of the different corps in the bay cities as well as Lincoln Corps of San Francisco, which she has presided over as president and has also been secretary of the corps and treasurer.

She was chairman of the Women's Relief Corps fund and during the earthquake of 1906 she received commendation for her diplomacy, faithfulness and splendid judgment in distributing the money to the needy ones.

Mrs. Dibble has also been a member of the board of directors of the Women's Relief Corps home and has been a director for six years and is serving her second term as its president.

ORGANIZED IN 1883.

The Women's Relief Corps, auxiliary to the Grand Army, was organized as a national organization in August, 1883, and since its inception it has grown to be one of the strongest societies of its kind in California. It has a membership of 161,646 women, representing 300 corps, which are located throughout thirty-five States, and the members are pledged to the principles and duties of the Women's Relief Corps.

According to statistics \$5,577,504.07 has been expended by the order for relief and the observance of memorial day. This represents the amount spent from August, 1883, to June, 1909. The sum spent annually for the relief of the veterans and his family exceeds \$4000.

BEGINNING IN CALIFORNIA.

The department organization was effected in February, 1885, when Mrs. Elizabeth D. Ryan, president of the Lincoln Corps No. 3 of San Francisco, was elected provisional president of California and Nevada, with authority to organize a department which she headed as department president.

She was appointed at that time by the national president in August, 1884, president of the corps in California and Nevada. In June, 1885, Mrs. Ryan was elected national senior vice-president of the Women's Relief Corps at the national convention held in Portland, Me. In 1886 Mrs. Ryan was elected national president at the convention held in San Francisco and she served fourteen months in that capacity.

Mrs. Ryan was elected president of the Women's Relief Corps Home Corporation in 1887 and she held that office five consecutive years and she is at the present time acting as treasurer of the home for the tenth term.

ESTABLISHED A HOME.

The department established in 1889 a home at Excelsior Santa Clara county where the aged and destitute survivors of the veterans and the army nurses are comfortably cared for.

The Women's Relief Corps is founded upon the platform of loyalty and charity and welcomes to its ranks all women who are faithful to these principles.

The following are the officers of the Women's Relief Corps of California and Nevada as follows: Ella Van Horne, president; B. S. Hawk, department senior vice-president; Anna Pierce, department junior vice-president; Jennie Hoffman, secretary; Genie Clark, treasurer; Ida L. Jarvis, counselor; Lucy Bullard, chaplain; Martha A. Chapin, patriotic instructor; Eliza Warburton Maule Brown, Mary Handley and Alfretha Hall, executive board.

OPENS TOMORROW.

Mrs. Ella F. Van Horne, department president of the Women's Relief Corps, will open the convention Wednesday morning in the First Methodist Church, fourteenth and Clay streets, where about 50 delegates will have a voice in the proceedings, which will be brought to a close Friday evening with a concert to be given in Central Hall, Twelfth and Franklin streets. It is asserted that 1200 representatives of the different corps will attend the sessions.

Mrs. Van Horne is a prominent member of Bartlett-Logan Corps of Los Angeles and has been affiliated with that corps for the last twenty-four years.

"BOB FITZSIMMONS" GLAD IT'S ALL OVER

SAN FRANCISCO, April 18.—The atmosphere hovering over this city this morning was one of suicide, as during the hours from midnight to 9 o'clock this morning five attempts were made by people in all walks of life to end their existence, and as a result three persons, two men and a woman, are dead, and a man and a woman are slowly recovering at the Central Emergency hospital.

William Thaler, called facetiously, "Bob Fitzsimmons," because of his striking resemblance in form and feature to the pugilist of bygone days of that name, committed suicide in a room at 483 Grove street, by swallowing morphine tablets. He was a waiter formerly attached to the St. Francis Hotel, and a member of the Masonic lodge. He had been married and divorced and his existence may be had from an extract of a letter addressed to his friend, John Eugene Norden, which reads:

NEVER HELPED HIMSELF.

"I helped so many and never know enough to help myself. When a man has made a failure let him pay the price. I have no grudge against any one. I am glad when it is all over. Only be sure and let nobody make a collection for my funeral."

Depressed by the nature of his surroundings, Mrs. Kitty Sullivan Thompson, a well-known hack driver and a familiar figure on the water front, died at 8 o'clock this morning at the Relief Home from the effects of ammonia poisoning. The woman had been drinking the fluid to wash some clothes yesterday morning, and had swallowed the contents of a large bottle. An antidote was immediately administered, but she was unable to survive the shock.

An unidentified man, who is believed to be Carl Smith, whose identity will be established for a certainty through a contract in his pocket, was found dead in a room at 1039 Mission street, this morning. He had stuffed the key holes and gummed it over with trading stamps, afterwards lying down and turning on the gas. He was about forty-five years old.

USES A RAZOR.

Herman Stern, a canvasser, suffering from tuberculosis, and grieving over a separation from his wife and two children, found five hours later and taken to the Central Emergency hospital. The dullness of the razor prevented his severing an artery and he will recover from the wound, although consumption has such a grip upon him that it is believed he can not live long.

While in a despondent condition, Miss Anna Pierce, who lives at the Hotel Piacenza, attempted suicide early today by swallowing a half-dozen of mercury tablets. After being treated at the Central Emergency hospital she was pronounced out of danger.

Becomes Mrs. Anthony Drexel of Philadelphia, at a Pretty Wedding.

PINK WAS COLOR SCHEME FOLLOWED IN DECORATING

NEW YORK, April 19.—In the marriage at St. Bartholomew's Church today of Miss Majorie Gayne Gould, daughter of George J. Gould, and Anthony J. Drexel Jr. of Philadelphia society recognized the premier event of its season and prepared to do it justice. The ceremony united the Gould family with one of Philadelphia's wealthiest and most aristocratic families.

The bridegroom is a banker, second son of Mr. and Mrs. Anthony J. Drexel, and only two years the senior of his 19-year-old bride.

Pink was the keynote color of the wedding decorations. It prevailed in the decorations of the Gould mansion for the luncheon preceding the ceremony and the church was likewise decorated in keeping with the prevailing color scheme.

THE BRIDE'S GOWN.

The bride's gown was of white satin, charming, cut in an old-fashioned princess style. There was an overflow of white chiffon embroidered with orange blossoms, and a long train also embroidered with the flower. The tulle veil which fell below the bottom of the skirt was fastened with a spray of orange blossoms. The white bouquet was orange blossoms and white roses. The costumes of the bridesmaids and of the maid of honor were in delicate pastel shades. The best man was the bridegroom's brother, Armstrong Drexel. Miss Vivian Gould was in attendance upon her sister as maid of honor. Miss Gould herself selected Bishop Scarborough of New Jersey to perform the ceremony.

President Flannery Determined to Fix Responsibility for Suicide.

BELVEDERE MEETING TO BE LOOKED INTO

SAN FRANCISCO, April 19.—The board of police commissioners begin today a complete investigation into the causes leading up to the death of the late Chief of Police, William J. Biggy, which will result in a searching inquiry into the truth or falsity of the statement that he was hounded to death by certain persons who were refused his co-operation.

President Harry F. Flannery of the board of police commissioners was very sweeping and positive in his statement when interviewed about the matter this morning.

FIX RESPONSIBILITY.

"We are anxious to fix the responsibility for Biggy's death and to bring to light the names of the persons who hounded him and worried him until he committed suicide in the waters of the bay. It is my personal opinion that this was the case, and I intend to have the matter looked up fully. We have postponed our decision until after we have interviewed Mrs. Biggy in order that we may hand down a written decision on Monday night next. I want to find out why Biggy became morose and sullen just before his death and why he was drinking so much."

"Moreover, if possible, I want to know what conversation he had with Commissioner Kell at Belvedere on the night of his death. If you will notice by looking the matter up, Coroner Leland never asked Kell at the inquest that most important and necessary question. Moreover, a report made by the commissioner that Kell at that time had been making a statement to the press that I can compel Commissioner Kell and Cutler to divulge to do it, and I'm going to find out about it today."

APPLIES FOR PENSION.

This investigation by the local police commission is the result of an application for a pension by Mrs. Biggy, the wife of the late chief, who met his death while returning on the police boat Patrol on the night of November 30, 1908, and was extremely worried over attack upon him by a local evening publication and the unfriendliness and antipathy of the so-called graft prosecution whom he had formerly served in the capacity of chief of the Police Department.

It is not believed that the pension will be granted to Mrs. Biggy by the board, but the members are unanimous in their anxiety to clear up the suspicious circumstances surrounding the death of the former chief.

Lawyer Extolls Accused Doctor and Wife as Model Citizens.

HE BITTERLY ARRAIGNS OLD MOTHER-IN-LAW

KANSAS CITY, April 19.—The line of defense Dr. Hyde will use in his fight for acquittal was outlined for the first time today when Attorney Frank P. Walsh made his opening statement to the jury that will try the physician. Extreme precaution had been taken by Dr. Hyde's attorneys to keep their defense a secret. Mr. Walsh spoke extemporaneously and began his address with a short review of the life of Dr. Hyde.

"The testimony will show you, gentlemen, that Dr. Hyde and his wife have lived in perfect contentment since their marriage, and this point will prove of great weight in this case," he said.

Taking up the death of J. Mose Hinton, Mr. Walsh said Dr. Hyde was not his regular physician, but was attending Colonel Swope when he was called to aid in the case of Mr. Hinton.

BLEEDING WAS RIGHT.

"That Hinton was suffering from apoplexy there was no doubt," said Mr. Walsh, "and bleeding, the course adopted, was correct, and was suggested by Dr. G. T. Twyman, the Swope family physician, who died yesterday."

Touching on the life of Colonel Thomas H. Swope, the attorney told of how the millionaire kept his will a secret from every person except his office partner, Sylvester Spangler.

"The testimony will show," said Mr. Walsh, "that neither Dr. Hyde nor his wife knew prior to Colonel Swope's death whether Mrs. Hyde would share in the residuary portion of the millionaire's estate."

Speaking of the private life of Colonel Swope Mr. Walsh stated that during the last twenty-five years of Colonel Swope's life he was drunk every afternoon. He also stated that a tonic containing strychnine was mentioned.

DENIES CHARGES.

"It has been said that Colonel Swope refused to take the digestive medicine which Dr. Hyde asked the nurse to give him," said Mr. Walsh. "This is untrue. The charge that Dr. Hyde told his nurse to make him take it, was also proved false."

Reaching the part of his story dealing with the fatal attack of Colonel Swope, Mr. Walsh severely criticized Mrs. Logan F. Swope, saying she desired Mrs. Hyde to sign a paper giving her share of a \$50,000 part of the estate, originally left to Mr. Hinton, to a Mrs. Moore, a sister of Hinton. This, Mrs. Hyde refused to do, Mrs. Swope said, thought Dr. Hyde had advised his wife not to sign the document and upbraid her.

ACCUSED DR. HYDE.

"Dr. Hyde won't let me give up this money," Mrs. Swope was alleged to have hotly declared to her daughter. As a matter of fact, the attorney said, "Dr. Hyde never was consulted by his wife regarding the Hinton share of the estate."

The typhoid epidemic in the home was due alone to the poor sanitary condition of the property. It was charged, "Colonel Swope, John C. Paxton, an executor of the Swope estate, and there was no poison in it."

Two days later, Dr. Hyde sued Mr. Paxton for \$100,000 for alleged libel.

"Mr. Paxton then telephoned his hired man and got a report that there was poison both in

Several Large Posses Are Combing Country Around Scene of Hold-Up, and a Capture Is Hourly Anticipated by Officials

MARTINEZ, April 19.—With two heavily armed posses leaving here early today for the vicinity of Redwood Canyon, the chase after the train robbers, who held up the China-Japan Mail, is converging toward the Livermore Valley, where the bandits may have boarded an overland train.

Yesterday morning J. A. Freitas of Walnut Creek met two men who bore a striking resemblance to the published descriptions of the bandits, and belief that these were the men wanted by the officers was strengthened by the report of an automobilist who met later in the day two suspicious characters in a dilapidated buggy in Redwood Canyon near Piedmont.

Constable George Groom of Danville, which is on the Livermore Valley road, reported to the sheriff's office by telephone today that two men answering the description of the bandits were seen in Danville early yesterday evening.

Groom reported that he had sent two deputies out on the trail of the men and that he himself would wait at Danville for Sheriff Veale and his posse now headed that way.

Lonely Cabin Hid Bandits While They Planned Crime

The search for the bandits who held up the Eastern Express at midnight Saturday was centralized yesterday in the hills of Contra Costa county, along the roads and through the canyons that lie in the southern direction from Martinez and toward Oakland.

That the bandits had lived for some time in the lonely cabin hid, owing to a discovery made yesterday by the posse under Sheriff Howard Veale. A number of prepared fuses such as were picked up along the track after the robbery were found in the cabin with a cache of food. O. K. Smith, an employee of the Mountain Copper Mining Company, the partner with another employee, during the past week occupied the cabin. He had noticed the strangers and were attracted by the suspicious manner in which they acted upon the approach of the men. At night, on hearing a noise, such as that of closing a gate that was in the path, the occupants would hastily blow out a candle in the cabin. Smith reported this to Deputy Sheriff Palmer. These men, now confidently believed to have been the ones who held up the train, will be easily recognized by Smith as well as by other men who had occasion at times to pass the cabin, obtaining several good views of their faces and general characteristics. As far as the identification of any suspects goes, Engineer Marsh would be beyond a doubt able to state positively as to the identity of any persons brought before him.

The two men who did the actual hold-up were on the train that left Oakland and were on the big steamer Bolano when it crosses the straits. During the passage they watched about the deck, approaching the engine and surveying at times close to the engineer, who noticed them particularly. As the train leaves the boat at the Benicis end of the ferry, it is the custom of the company to have one of the special policemen board the front end in order to prevent tramps from taking passage on the "blind baggage." Whether or not this precaution had been taken Saturday night is not known to any but the officials of the company, but it is evident that the men were concealed there, or on top of the cars. It is more likely, however, that they were on the "blind" or at the rear of the tender.

Miscalculation of Bandits Warded Off Shotgun Fight

Had the train robbers not miscalculated the time, or some part of their plan not gone wrong, they would have boarded the Portland Express which was following the Eastern mail only three quarters of an hour behind.

Doubtless the story of the boldest train robbery which has taken place for years would then have had a more tragic version for notwithstanding the reticence of the road officials and occupants would hardly blow out a candle in the cabin. Smith reported this to Deputy Sheriff Palmer. These men, now confidently believed to have been the ones who held up the train, will be easily recognized by Smith as well as by other men who had occasion at times to pass the cabin, obtaining several good views of their faces and general characteristics. As far as the identification of any suspects goes, Engineer Marsh would be beyond a doubt able to state positively as to the identity of any persons brought before him.

ATTEMPT TO WRECK OREGON EXPRESS BY PUTTING TIES ON TAACK

REDDING, Cal., April 19.—After Sheriff's posses are searching the vicinity, a tie picked up from a pile which it knocked from the track, a distance of four miles, attached to the pilot, the engine of the northbound Oregon express was derailed and upset at Corning today and the mail and express cars telescoped.

It is the belief that the obstruction may have been placed on the rails by hoboes with intent to wreck the train.

Tariff Board Begins Its Work at Once

WASHINGTON, April 19.—At a conference between President Taft, Henry C. Emery, James B. Reynolds and Alvin H. Sanders, members of the tariff board, yesterday, it was decided that the board should begin work at once on statistics showing the cost of production in this country of various important articles reported and sold abroad, with a view to comparing the figures with the cost of foreign production of similar articles.

This decision was made in order to follow out the basic direction of the Republican national platform in regard to the tariff.

Miller will entertain tomorrow at a large luncheon in the Francisco Club in San Francisco. He came to California a number of years ago and settled in San Jose, also building a spacious summer home in the mountains near Saratoga.

Miss Moon was educated at Notre Dame convent in San Jose and at Miss Mason's school in New York, specializing in Spanish, French and music.

Mrs. Moon and her daughter are socialists well known in San Francisco, as well as in San Jose, their home having been the scene of much entertaining for people prominent in both cities.

Women Never Come Of Age, Countess Talleyrand Says

(Maxims of Countess Talleyrand.)

Women never come of age. Reason irritates them, sentiment guides them. The first thing they know is that they are pretty, the last thing they learn is that they are old.

Woman is a drop of dew which turns to a pearl.

When a woman loves she forgives even crime, when she loves no more she does not even forgive virtue.

A woman is like an army—she is lost if she has no reserve.

Don't marry a lover of music; perpetual harmony will end in separation or nervous breakdown.

Friday afternoon, "Growth of Democracy During the Victorian Era" and "Gladstone's Efforts in Behalf of Home Rule" were the subjects of the very interesting papers given by Mrs. Joseph and Mrs. Gutches. Mrs. Merritt presided over the session. The club was given this month, has been postponed until the fall. A delightful social hour was enjoyed, and refreshments were served at a large round table ornamented with forget-me-nots, the club flower. The club entertained Mrs. James Truett of Fresno and Mrs. Field of Vallejo. Cards have been issued for the April party of the club, which will take place on the 21st, at the home of Mrs. Arthur Moulitz on Santa Clara avenue.

EVENING OF MUSIC. Mr. and Mrs. Charles Sparwasser entertained a group of friends at their home in Thirty-first street Friday evening, at the second of a series of evening parties. After supper was served and a delicious musical program enjoyed. Those who contributed to the musical program were Miss Rita V. White, Miss Annie M. Shirreff, Miss Rosalind Bost, Miss George McGuire, Mrs. Frederick George, Mrs. George W. Nunes and Mr. Edward Shirreff.

Those present were: Mr. and Mrs. Frank A. Marshall, Mr. and Mrs. Charles L. Lee, Mr. and Mrs. Leroy Glackett, Captain and Mrs. C. J. Brunner, Dr. and Mrs. J. T. King, Mr. and Mrs. George A. In the night Mrs. Williams became anxious about a pet pigeon which had been in the barn and entered against her bedroom window. Taking a lighted lamp she went to the barn to investigate. A few moments later the building was discovered in flames, the origin of which is unknown, as Mrs. Williams was breathing her last when carried from the burning structure by her husband, who was aroused by her cries for help.

Brewer's Daughter Whose Gowns Were Seized for Debt

ST. LOUIS.—From a small matter the seizure of the baggage of Miss Nellie Anheuser of this city by a dentist in Chicago for a bill of \$25 seems bound to result in a big law suit. A dentist in the Windy City seized all her trunks and clothing at the Congress Hotel. The young girl spiritedly declared the work he did for her charged \$25 an hour was poor and not worth anything.

Composing Room Idle As Printer Girl Weds Pretty Waitress Serves On a Pullman Diner

BELLEFONTAINE, Pa.—Nether indifference upon the part of the printer's guild is responsible for the absence or detention of any of the usual interesting features of the Bellefonte Central Democrat this week.

The typist lady in the office, Miss Anna Sloey, failed to appear on Monday, and later the editor received a letter from her, stating she "was not in his employ and more" a fact of which he was painfully aware.

It was soon learned that Miss Sloey and Harold A. Stevens, of Reading, a student at the Bellefonte Academy, had been married at Lack Haven by the Rev. Lewis Nichols, of St. Paul's Episcopal Church.

Kissing Put Under Ban Of Hard-Hearted Savants

NEW YORK.—Kissing in its modern promiscuity is pernicious and should be condemned as dangerous, say savants. The custom probably has its origin in affection but in its present form it is a menace to the race.

It is a form of kissing which is a menace to the race, a menace to the race, a menace to the race. It is a form of kissing which is a menace to the race, a menace to the race, a menace to the race.

Woman Not Big Enough For Ballot--Paula Wasn't

NEW YORK.—The ballot is too big for the woman, this fear, which is constantly used as an argument by the opponents to the vote for women, was realized in a sense when Paula, the little girl, now appearing at the Hippodrome, played her part in the official ballot of the last New York election and found that she lacked eleven inches of "measuring up to the vote."

It took forty-five inches to make a ballot, while Paula, who is only thirty-four inches tall, was required in which to complete a pocket edition of a woman.

Weights 302 Pounds; To Wed Lass of 98

HUNTINGTON, Ind., April 19.—E. O. King, for two years captain of the Indiana University football team and later, as the center for Harvard, spoken of for the All-American Eleven, is to be married to a girl named Paula, a school teacher, who weighs only ninety-eight pounds. King was always noted for his weight, and he now tips the beam at 302 pounds.

Arm in Arm They Were Walking When They Met the Woman

ST. LOUIS.—Oval Gallup and David S. McCash were walking along, arm in arm, at Broadway and Carr street Wednesday night. They were both feeling good, and they didn't care who knew it.

A young woman approached. McCash laid his hand upon her arm in familiar fashion. "Well, well," he exclaimed, addressing the whole world in general, and Gallup in particular. "Here's my wife!"

"Go and take a run for yourself!" shouted Gallup. "That's MY wife!"

"YOUR wife?" sneered McCash. "Not if the court knows itself!"

The young woman was noncommittal. "Well, we'll take a walk, anyway," said McCash; so they pedaled around until they came to Fifteenth street and Franklin avenue. There McCash demanded in theatrical tones, "What for?" asked the policeman.

"Bignamy."

"Is this your wife?" asked O'Hare. "She is," replied McCash.

"Don't listen to him, officer," shouted Gallup. "This lady here is MY wife."

O'Hare turned to the woman. "How about it?" he asked. She was not enthusiastic about claiming relationship with either her husband or the man who was turned over to the matron. A warrant charging bigamy on her part is the next number on the program.

To the police she gave her name as Mrs. Nettie Hayes—Hayes being the name she bore before she had ever thought of a husband.

Three or four years ago she was married to Gallup. So she told a Post-Dispatch reporter Thursday. That was as near as she could come to the date. The ceremony, she said, was performed by Justice of the Peace Moore. Later they separated. Then McCash appeared upon the scene. They were old friends.

"Let's get married," suggested McCash.

"But I am already married to one man," she protested.

"Let's see your license," McCash demanded the paper. McCash tore it to pieces and cast it to the floor.

"Now your marriage is annulled," he said. "Come on." And she went. McCash had money and they were married in a rooming house. Last August she deserted him because he didn't support her, she says, and went back to Gallup. Then they separated, and she went to work in a restaurant, rooming, meanwhile, at 406 Carr street.

McCash resides at 1635 Lulu avenue, Wellston. Gallup lives with his mother at 2130 Wash street.

Jilted Lover Sends Girl Two Snakes

MANCHESTER, N. H.—Two writhing adders, nearly 24 inches long, were in a paper box which Michael Haseelberg confided to Miss Alice Stuart of this place, with a request to give it to her chum, Miss Rosie Cabana, who had spurned his advances.

Inquisitive members of Miss Stuart's family lifted the cover of the box, which she had taken home after a vain attempt to find Miss Cabana. One of the snakes crawled partly out, but was jammed back, and the box, with its contents was rushed to the police station, where the snakes were killed. Haseelberg was arrested on a charge of disorderly conduct.

FIGHT FOR LOWER RATES IS LOST

The Commerce Commission Decides Against Arizona Town in Railroad Suit.

WASHINGTON, April 12.—An opinion was handed down yesterday by the Interstate Commerce Commission in a long series of cases instituted by the Copper Queen Consolidated Company of Globe, Ariz., against the Baltimore and Ohio Railroad Company and many other interstate carriers desiring reparation to the complainant on shipments of coke from the Pennsylvania fields to Globe, Ariz.

The importance of the cases lay in the allegation that the through rates on coke were excessive. The rates amounted to the joint rates from the ovens to Chicago plus the local rates from Chicago to points of destination. The commission maintained that it was unjustly obligated to pay the higher of two rates from the ovens to Chicago.

The commission held that the complainant could not be permitted to attack the separate divisions of joint through rates according to the various carriers. The commission held always that the demand for reparation was not based upon any real damage or injury to the shipper.

Horse Goes on Spree And Ends in River

SPRINGFIELD, Ohio, April 12.—Having wrecked a roller car, smashed a wagon into splinters, injured five men and held up a big four train, a horse ended its spectacular career here last night by being killed with a pick and buried in the Mud river.

The horse was originally attached to the wagon in which was seated the five men. It started on its spree by backing the wagon into a traction car, one side of which it demolished. It then backed the wagon to pieces and distributed its five occupants in various parts of the road, two of them being seriously hurt.

Fixed of the wagon, the horse dashed along a railroad track, where it fell with a broken leg in front of a on-coming train. The train was stopped and the horse dispatched with a pick, the only means available. The whole train crew then was called into action and they buried the body in the Mud river.

OAKLAND KENNEL CLUB TO HOLD A SHOW

Directors Denounce Alleged Attempt to Create Impression to Contrary.

The following letter was received by the sporting editor of THE TRIBUNE this morning:

TO THE TRIBUNE: Our attention has been called to the fact that the Golden Gate Kennel Club is circulating letters to the fancy soliciting entries for their show. In such letters the declaration is made that "the word has been reported that Oakland will hold no show and this will be your only chance to win points around this vicinity this year."

For the information of the fancy who have always regarded the Oakland Kennel Club as a club of no account, we desire to state that no inquiry has ever been received from the Golden Gate Kennel Club asking whether or not the Oakland Kennel Club intended to depart from its custom of holding a spring show, and the attempt to create an impression to the contrary is a deliberate attempt to create an impression to the contrary.

KANSAS CITY, April 19.—It is impossible for me to state just when I shall join the Chicago Nationals, said John G. Kling today. HARRIMAN GIVES UP ATHLETICS FOR FAMILY

Notoriety Displeases Family of Financier and Son Retires.

(By MANHATTAN.)

NEW YORK, April 19.—Averill Harriman, son of the late E. H. Harriman, has ended his athletic career out short, due to the wishes of his relatives, who did not like the notoriety the young man was bringing down upon the family.

Young Mr. Harriman is an enthusiastic gamester and was a member of the freshman crew at Yale. Last fall he was on the academic freshman crew and received considerable newspaper mention, before that he had rowed two years at Croton and was considered somewhat of an expert.

The young chap also had designs upon a position upon the football squad, although he is light in weight and slight in figure, but the family objected to that also. His baseball aspirations were shattered in like manner. This is one of the first cases on record where a member of a rich family had to give up sports because of newspaper attention.

Mr. Harriman, the greatest living football player, who played Yale to victory last year, is going to become a reporter. He is not a regular reporter, but at any rate he is going in for journalism in the fall to give a try-out.

Mr. Harriman will write athletic news of Yale under his own signature for a New York newspaper.

"I won't hand in any copy until the fall," he said. "I shall write a great deal. I think I will like it very well. I used to do some writing for our college paper and I got along first rate. I have already signed up and am ready to join the journalistic ranks."

Indianapolis will spend more than \$100,000 for the week's aviation meeting to be held on the Speedway from June 12 to June 16. It is expected that Wilbur or Orville Wright will be present, but any rate there will be a number of Wrights in the competition. The Wrights have agreed to waive all patent claims for a week, so that foreign aviators can compete without fear of litigation or having their machines taken away, as befell Paulhan in New York.

Speaking of baseball as an institution, more than \$3,000,000 will be paid out this year in salaries. This does not include the enormous expense of keeping up the grounds, buying supplies and paying traveling expenses. The total expenditure for the baseball of the two big leagues during the season this year will run close to \$10,000,000.

Baseball is a paying institution. August Harriman, chairman of the National Baseball Commission, predicts that this season will pay \$8 per cent upon the money invested in baseball.

"Baseball is the greatest business in the land," says he. "It is a progressive business and is continually growing."

Has anybody seen Cornelius McGinnis? What, don't know him? That is Connie Mack, manager of the Philadelphia Athletics, who saw McGinnis in the city of Philadelphia. McGinnis is a former player of the Philadelphia Athletics, who saw McGinnis in the city of Philadelphia. McGinnis is a former player of the Philadelphia Athletics, who saw McGinnis in the city of Philadelphia.

Within two weeks the new acropolis for the Apollo temple of the University of Pennsylvania will be completed. Then the university will send a challenge to all other American colleges, challenging to a flying match.

The oldest and most famous manager in the national pastime is an apt description of "Deacon Jim" McGuire, who will supervise the destinies of the Philadelphia Athletics this year. He began playing ball in 1881. This gives some idea of his age and his services. The discipline received by McGuire in the instance of "Deacon Jim" being elected from a game. Not only that, but he has never been fined or suspended for any reason.

McGuire was an active catcher up to last season. He was with Clark Griffith in New York a few seasons.

FAMOUS RACE TRACK IN TERRE HAUTE IS TO BE DESTROYED

TERRE HAUTE, Ind., April 19.—The famous four-cornered race track on which so many world's records for harness horses were made, is to be destroyed. For weeks the Terre Haute Trotting Association had been trying to adjust its affairs that the meeting in July in the Great Western circuit might be given, but the readjustment not being effected, the owner of 47 acres of what is commonly called the fair grounds, gave an option to a real estate firm.

Marine Firemen and Engineers Win Fast Game; Challengers

A very exciting game of baseball was played Sunday afternoon on the grounds at First and Kirkland streets between the Marine firemen and engineers of the Southern Pacific steamers Melrose and Transit and the J. J. Danahers of Savannah and Alameda streets, and was won by the former team by the score of 12 to 1. The features of the game were a home run by Healy and the battery work of the winners. Foley, the pitcher for the Danahers, was hit hard, fifteen hits being made off his delivery. The marine firemen would like to hear from any amateur team in the state.

Coffroth Wins Out Against Hester in Battle for Permit

REDWOOD CITY, April 19.—James W. Coffroth of the Sunshine Athletic Club won a decisive victory over Sid Hester of the Mission Athletic Club before the San Joaquin Superior yesterday when the issue of the battle for the exclusive right to the use of the grounds of the suburban county decided to dismiss the action against Coffroth, which asked for the revocation of his license, and then refused to grant Hester the permit which he has been trying to get for so long.

Seminole Nine Wins From the Centervilles

The Seminoles defeated the Centerville team in the game of ball Sunday by a score of 6 to 0. Heavy hitting by the Seminoles, coupled with the good pitching of fairly, won the day for the Seminole boys, as the Centerville lads were aggressive all the way and made the Seminoles fight hard for every run. The Seminoles were carried off by Miles and Coffey, while Van Antwerp and Coffey starred at bat.

WOLVERTON CREW BATTLES WITH BEAVERS

Team in Fine Fettle; Should Make Good Showing Against Portland.

The Oaks are now in Portland and with the Beavers as opponents on their own ground, open the baseball season in the northern city with an initial game this afternoon. The McCredie aggregation has just finished a three weeks' competition against San Francisco, Vernon and Sacramento on California ground, showing up to good advantage in all of the try-outs. They were accorded a hearty welcome by the home fans on their return, and expect to put up a hard fight. Under the guidance of Captain Wolverton the Oaklanders are picking up steadily, however, and the city fans are banking on the squad for a steady climb up the ladder, despite their apparent fondness for the lower rung during the first of the season.

Willie Hogan is still compelled to walk with a cane and the incapacity of fielder did not account for the team's loss. He expects, however, to resume his place next week.

Marathon Racing Is Apparently to Be Permanent Game

It seems that marathon running has come to be one of our permanent sports. The marathon race had apparently died out in East, while Dorando and John Hayes and other runners were making a four of the South, the West and the Northwest. Ljungstrom's new record of 2 hours 34 minutes 23 seconds will likely stand for some time unless he breaks it himself. But Ljungstrom is a remarkable runner, and he was in more phenomenal way before passing into oblivion.

A Derby marathon run in England was designed to beat the American-made record, but failed by 2 minutes 3-5 seconds.

Marathon runners do not last long. They enjoy their little heyday of limelight, then fade away. They are short-lived of all athletes. There was a time when Tom Longboat was acclaimed great; now he is forgotten. Also passed Alfred Shrubb, the great St. Yves John Hayes, Dorando, and the rest. Just now Ljungstrom and Thure Jonsson are in the public eye.

GOLF CLUBS REMISE. CHICAGO, April 19.—Final notice was mailed yesterday by the Western Golf Association to secretaries of Western clubs reminding them that they have until next Monday to send their lists to the club and committee. KLING'S MOTIVE IS A 'STICK-UP GAME,' DECLARES CHANCE

ST. LOUIS, Mo., April 19.—"John Kling's alleged statement that he would start playing as soon as he joined the club is all rubbish," said Manager Frank Chance of the Cubs last night.

"Of course we will give Kling a uniform and a chance to play ball, if he does pay his fine and come back to us, but it is a matter of indifference to me. If he wants to stay in Kansas City, it is his own lookout. You may be sure the Cubs will not beg him to get back into the game. I am sick and tired of the whole Kling business, but tickled to death that we have enough catchers, and good ones, too, to get along without him."

"Kling has a motive in not reporting to us," continued the Cubs' leader, "and his motive is a regular stick-up game. He seems to think we are going to give him a raise. He knew his old salary was \$4500 and he was out to get a raise. As a member of the Chicago club, Kling picked up the sum of \$7500 in baseball during the season of 1909."

St. Mary's Athletes Match Speed and Strength in Meet

As a means whereby Coach Falkner of the St. Mary's College squad may get a line on his men an interclass track meet was held this afternoon in the college stadium. In preparation for the initial track meet of the year between the local boys and the University of Pacific squad at the latter's grounds in San Jose Saturday afternoon. The week will be a busy one for the field athletes and practice is in order. This afternoon work commenced immediately after the conclusion of class work and concluded when the last event was run off.

Considerable interest has been attached to the track team of St. Mary's College because of the fact that it will be pitted against the squad of Santa Clara College May 28 at the Stanford oval. This event will mark the beginning of athletic services at both institutions for the semester, and in the event of St. Mary's men defeating their Mission town rivals they will have accomplished a clean sweep since the commencement of the school year last September.

The St. Mary's boys are scheduled to meet the trackmen of Oakland High School Wednesday afternoon, May 4, at the former's stadium, and a keen competition is expected.

Reliance Club to Give Smoker and High Links

Tonight the members of the Reliance Athletic Club and their friends will have a smoke on the "good night" at the club. These "nights" have become very popular, and when the date is announced each month the members know of something "doing."

At the smoker last month over 200 were present, and every one enjoyed himself to the limit. The program for the evening will be a little different from the one of two but equally as good. Those who attended the last know what this means.

LORD KITCHENER, THE SILENT ONE, BECOMES A BASEBALL ROOTER

NEW YORK, April 19.—Lord Kitchener was once the weather man this morning to revise his early prediction of rainy weather, and let the sun shine out, in order that the big league diamond might be hard and dry for the afternoon's baseball game. Lord Kitchener was particularly anxious about the weather, for he was planning to see his first baseball game. He was invited to be the guest of a box-holder at the polo grounds, where the New York Nationals were scheduled to open the season with the Boston team.

Lord Kitchener will dine tonight with the British consul-general, before he goes home tomorrow morning.

MAYOR TELLS OF PROMISES MADE BEFORE ELECTION

He Assured Residents of Diamond That Saloons Would Be Barred From There by City Council

Mayor Mott appeared before the city council last night and told the promises he had made to the people and saloonkeepers in the Diamond district before the election. He assured residents of Diamond that saloons would be barred from there by city council.

"I want as Mayor of this city to enter protest against the granting of a license to any one in Diamond to sell liquor," Mayor Mott declared. "I have been fighting for the prohibition of saloons in the Diamond district since I was elected. I have been fighting for the prohibition of saloons in the Diamond district since I was elected. I have been fighting for the prohibition of saloons in the Diamond district since I was elected."

In the annexed district there has been considerable controversy over these saloons. Prior to the election, Mayor Mott had promised to the residents of Diamond that saloons would be barred from there by city council.

Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Alkey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my illness, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Erick Grosch Wanted Letter, and Said He'd Kill to Get It.

Grosch, who wrote threatening letters to Postmaster Arthur Fisk, declaring that he would kill him, was expected to be held by the postal authorities here last night at the main postoffice, Seventh and Mission streets. Regularly every day for some time past Grosch has presented himself before the window at the general delivery section of the postoffice, inquiring for a letter, which has thus far failed to appear.

No attention was paid to him until he began sending his threatening missives to the head of the postoffice, whereupon he was promptly taken into custody and turned over to Detective Daniel Prescott. He has been conveyed to the Detention House, where he is to await his trial to his equity. Since coming here he has been living at the Bay Shore House.

Dunphy Bought Wine To Celebrate Wedding

SAN FRANCISCO, April 19. — On the day of his wedding to Lydia Valencia, James Dunphy purchased several bottles of wine at roadhouses in San Mateo county "to observe," as one witness stated, "the greatest event in his life." The trial of the annulment suit brought by Miss Jennie Dunphy, who frowned upon the marriage, was resumed yesterday before Judge Swawell.

"What do you think of my little girl?" the greeting Dunphy offered

wife, was the girl
 to his friends when they called to con-
 gratulate him. "The wedding will be a
 doubly surprise to my sister, Jennie,"
 Dunphy said to Miss O'Brien. "If she
 knows that I am happy she will be
 happy. If my sister could only meet
 my wife she too, would fall in love
 with her," Dunphy said, according to
 the witness.
 According to the testimony of Con-
 way, he gave his wife \$17,000 in 1900
 when they were wedded. That was, a

Umbrella of 1723 Found in Cellar

NEW YORK, April 19.—Excavators for the thirty-one story annex to the Whitehall building on West Street have unearthed relics of New York's Colonial days. The first that came to light was an umbrella handle dated 1723 as inscribed with the name of John Hale. Spanish coins were dug up, too, but the dates could not be ascertained, as the coins disappeared into the pockets of the laborers. Another mine was of old blue cloth, reminiscent of Dutch New York. One piece almost prophetic of modern fashions in dogs was the handle of a pitcher in the shape of an attenuated and elongated dachhund.
